Good Educational Environment with excellent facilities.

Clean hygiene

Could Improve time management during events.

Sometimes because of too many activities it disrupt the learning environment.

Management is really great in SJC but in some area it still needs immediate improvement, like the canteen - food quality and price, and improvement of food rather than junk food. The canteen in science block, if possible make it a larger one so that people can access to it easily instead of waiting for the whole break and still couldn't be able to get any food. Extend the area so that even when it rains, people will find comfort standing or sitting to have their lunch. As BBA student, we take full class - full minutes so we find it difficult to come down to arts canteen as it consume time and it gets full when we come down. I request the management to look over the matter. Health is wealth.
