Seminar – 17th July 2019

NE at the heart of Act East Policy: Assam Gov

DIMAPUR, JUL 17 (NPN): Assam Governor, Prof. Jagdish Mukhi said that the development of North East has to be viewed not just from a domestic perspective but also in the context of neighbourhood of India.

He said friendly partner countries essential to our vision for Northeast, can contribute substantially for a comprehensive development of NE, India and ASEAN as a whole. Addressing the seminar on "Natural Resources, Skill Manpower and Development of North East" at St. Joseph's College (Autonomous), Jakhama on July 17, Prof. Mukhi said Centre views the North East region as very vital for the development of the entire country and has put the region at the heart of Act East Policy.

In view of this, he said Bhutan and Bangladesh have already opened their Consulate offices in Guwahati and Singapore is in talks to open one.

With the proximity of NE to many ASEAN capitals, Prof. Mukhi said Centre was keen to start flights between Guwahati and ASEAN capitals with Thimpu, Singapore and

Governor of Assam, Prof. Jagdish Mukhi addressing the seminar St. Joseph's College (Autonomous), Jakhama on 17th July, 2019.

Dhaka already connected to Guwahati. The government is also working to improve the motorable road link, the ASEAN tri-lateral highway connecting NE and ASEAN countries, he added.

Mukhi maintained that Nagaland had always occupied the nucleus of North East development agenda. He said the Civil Aviation Ministry approved two helicopter services to keep the state headquarters connected with the district headquarters and under the Union Budget, 2019-20, Rs. 500 crore was allocated

for rail, connecting Dimapur with Kohima.

To augment air services in Nagaland, he said three new routes were taken up in which Dimapur will be connected with Guwahati, Imphal and Dibrugarh and under UDAN scheme, construction of Greenfield Airport at Cietu, Kohima was on the pipeline.

With the strategic geographical location of the State in the ambit of the Act East Policy, Prof. Mukhi said Centre and the State government was planning, executing and

monitoring development schemes and projects with special emphasis on Nagaland.

He further said that Centre was working to stimulate economic development of the State by incentivizing farmers to expand the scale of commercial production, create employment opportunities in non-agricultural sectors to absorb the educated unemployed and to ensure that regional balance takes place.

While pointing out the regions rich natural resources and biodiversity, he emphasised the need for the growth in economy with the growth of ecology.

Nagaland Governor, P. B. Acharya, in his address also emphasised that "unless Northeast develops India cannot progress." He said that skill and manpower development should be the agenda and there is a need to bridge the gap of skill and manpower with natural resources, industries, trade and commerce.

Acharya said that universities play an important role in bridging this gap by not only being centres of knowledge, but also centres of development and empowerment.

ABOUT THE COLLEGE

St. Joseph's College (A), Jakhama is a Catholic institution of higher learning established and managed by the Diocese of Kohima, Nagaland. It is the first college established by the Catholic Church in Nagaland. It aims at imparting quality higher education that is based on the Christian vision of life. The college stresses on the formation of the whole person by recognizing and developing the vast potentialities latent in the student in a balanced manner, taking into account the student's socio-cultural context. The College was inaugurated on 19th March 1985 at the Loyola School Campus, Jakhama, under the administration of the Society of Jesus, with Pre-University Courses in Arts (including a Vocational Course) and Commerce. It was affiliated to the North-Eastern Hill University, Shillong, in the same year. The College is now located in a spacious campus in Jakhama village, about 14 kms from Kohima, along National Highway 2. As of 2020, there were 4208 students (3912 UG and 296 PG). The college offers degree courses in Arts, Commerce, Business Administration, Science and Masters degree in English, Sociology, Political Science, Economics and History. The college was granted Autonomous Status by UGC Notification No. F22-1 (AC) Dtd. 11th Oct., 2018.

Concept Note

Ever since the World Health Organization (WHO) declared the novel coronavirus (Covid-19) outbreak a global pandemic the world has almost come to a state of standstill. The impact of the innovative strategies, such as restriction of goods and movement, the closure of borders, while being instrumental in curtailing the spread of the disease has resulted in unintended consequences that has adversely affected every facet of our life. The unprecedented challenges that such situations have brought about is felt at various quarters-the individual, social, political, economic, educational, cultural, etc. Consequently, recognizing the need to built back better, we need to develop long-term sustainable strategies to address the impending challenges. This calls for us to engage with the new narrative that we are confronted with. Thus, keeping in mind the need to understand the "new normal", the aim of this webinar is to understand the peri-pandemic narrative and its current impact on the people. Moreover, in anticipation of a future that is conducive to the recovery and progress of the society the webinar also seeks to engage and formulate possible holistic response policies.

Themes for Technical Sessions :

1. Pragmatics of Digital Learning and Pedagogy
2. Changing Socio-Cultural Patterns Peri-Pandemic
3. Pandemic Politics and Economic Crisis
4. Impact of COVID-19 pandemic on Communication and Language

Sub themes :

Future narratives
Populism and Pandemic
Transition in social media narrative
Paradigm shift in narrative of communication
Identity, culture and pandemic
Gender, politics and pandemic
Changing educational imperatives
e-classroom management
Open Book Online Examinations
Economic marginalisation
Impact on industrial sector
ICT and society
Meritocracy in education
Quality vs. quantity education
Digital application in teaching
Labour market fall out
Financial crimes
Economy and environment
International market amidst pandemic
Strength, Weakness, Opportunities and Challenges (SWOT) in e-learning
Entrenched social inequalities
Shift in cultural and social behaviours
Career opportunities and challenges
Human Behavioural adaptation
Refugees and migration
COVID-19 infodemic
Linguistic semantics of COVID-19
COVID-19 and literature
COVID-19 neologisms

* Papers may address, but need not be restricted only to the sub themes.

ST. JOSEPH'S COLLEGE AUTONOMOUS, JAKHAMA

Date: 2nd and 3rd October, 2021

An International Webinar on What can you do with Science: A Career Guidance for Science Graduates

Organised by the School of Sciences in collaboration with IQAC, St. Joseph's College (Autonomous), Jakhama, Nagaland, India. NAAC accredited with 'A' Grade.

Keynote Speaker
Dr. T. Sangyu Yaden
Professor & Dean
School of Sciences
Nagaland University, Lumami

Speaker
Dr. Romila Mascarenhas
Postdoctoral Research Fellow
University of Michigan
USA

Speaker
Dr. Meera Stephen
Research Fellow
Nanyang Technological University
Singapore

Speaker
Dr. Rushil Fernandes
Research Investigator
Syngene Amgen Research & Development
Center, Bengaluru

Speaker
Mr. Raghu N
Associate Manager-Quality Assurance
Novartis Healthcare Private Limited
Hyderabad

Speaker
Dr. Trinadha Rao Sornapudi
Scientist
ETH-Zurich Universitiy
Switzerland

Free E-Certificate for all Participants

An International Webinar on

What can you do with science: A Career Guidance for Science Graduates

About the Webinar

Many students are in dilemma when they find themselves at a crossroads in their career, often due to lack of awareness or proper guidance. In the current context of the state of Nagaland, most students pursuing Science studies are very limited in their vision of pursuing a career in future. Due to limited research laboratories, industries and science institutions in the state, most of the science graduates are inclined to seek a career as a teacher in schools or colleges. However, as we look into today's challenging world, there are many exciting options available if we do not restrict ourselves to teaching as these career paths are equally exciting, challenging and rewarding. For example, opportunities are available in research, science policy, science administration and management, technology transfer, intellectual property rights management, science communication and outreach, technical writing, industrial research and development, quality assurance/ control, marketing, technical sales and many other fields. Moreover, a sound PhD and postdoctoral experience has an immense capacity for empowering an individual in a number of ways. In addition to technical skills, this experience trains one in multi-tasking, thinking critically and rationally, systematically solving problems, navigating professional relationships, working in teams, exercising leadership, managing time, resources and events, compiling and analysing data, resolving conflicts, communicating effectively, etc.

This webinar, therefore, aims to widen the vision of the participants into the world of academia and research. The webinar is organised as a "career guidance programme" with the view of inspiring young science graduates to explore the world of Science and technology. The speakers in the webinar are all actively involved in the field of research, and they will be sharing from their vast experiences of working in various laboratories, institutes and companies across the globe. In listening and interacting with the speakers the participants will be able to acquire accurate and reliable information about the various platforms of scholarships, fellowships, possibilities of internship, how to prepare for various exams and interviews in the field of research, etc.

About the College

St. Joseph's College (Autonomous), Jakhama is a Catholic institution of higher learning and is managed by the Diocese of Kohima, Nagaland. It aims at imparting quality higher education that is based on the Christian vision of life. Catholic education stresses upon the formation of the whole person by recognizing and developing the vast potentialities latent in student in a balanced manner, taking into account the student's socio-cultural context.

DAY
1

An International Webinar

Inaugural Session

8:30am – 9:30am

Chairperson

Ms. Rukutalu

Assistant Professor

Head, Department of Zoology
St. Joseph's College (A), Jakhama

Welcome Note:

Dr. Fr. George Keduolhou Angami

Principal

St. Joseph's College (A), Jakhama

Keynote Speaker:

Dr. T. Sangyu Yaden

Professor & Dean

School of Sciences
Nagaland University, Lumami

Session 1

10:00am – 11:00am

Chairperson:

Ms. Senchumbeni

Assistant Professor

Department of Chemistry
St. Joseph's College (A), Jakhama

Speaker:

Dr. Romila Mascarenhas

Postdoctoral Research Fellow
University of Michigan, USA.

Topic: Navigating the Biochemistry Academic Research Track

Session 2

12:00pm – 1:00pm

Chairperson:

Ms. Judith Dziivnuo

Assistant Professor

Department of Mathematics
St. Joseph's College (A), Jakhama

Speaker:

Dr. Meera Stephen

Research Fellow

Nanyang Technological University
Singapore

Topic: A Career in Research – My Story

DAY
2

An International Webinar

Session 3

12:00pm – 1:00pm

Chairperson

Dr. Hormila G. Zingkhai

IQAC Co-Ordinator

St. Joseph's College (A), Jakhama

Speaker:

Dr. Rushil Fernandes

Research Investigator

Syngene Amgen Research & Development Center

Bengaluru, India

Topic: Science in Academia and Industry: A Perspective on Opportunities and Career Progression in the MSc and PhD for Science Graduate in 2021

Session 4

1:30pm – 2:30pm

Chairperson:

Ms. Thejano

Assistant Professor

Department of Physics

St. Joseph's College (A), Jakhama

Speaker:

Mr. Raghu N

Associate Manager – Quality Assurance

Novartis Healthcare Private Limited

Hyderabad, India

Topic: Introduction to Pharmaceutical Industry and Career Opportunities

Session 5

3:30pm – 4:30pm

Chairperson:

Dr. Kizukala Jamir

Assistant Professor

Department of Botany

St. Joseph's College (A), Jakhama

Speaker:

Dr. Trinadha Rao Sornapudi

Scientist

ETH-Zurich University

Switzerland

Topic: Research and Career Development

Vote of Thanks:

NATIONAL WEBINAR

Webinar Concept

Healthy ecosystems and rich biodiversity are fundamental to life on Earth. The need to adapt to the new patterns of the rapidly changing climatic factors and the resulting effects has greatly impacted the evolutionary changes in plants as well as in animals. Thus, there is a need for a tenable equation between the resulting climatic variations and the functioning of the overall ecosystems. Yet, the present global biota had been deeply affected by climate change which is a direct consequence of human activities. The visible impacts associated with climate change are rising temperature, change in sea level and precipitation patterns. The rapid and massive changes humans activities have made to air, land, water and forest resources have reduced the resilience of our natural ecosystems.

Therefore, the need of the hour is to mitigate climate change and facilitate the adaptation of biodiversity in tandem with the resulting climatic changes. The intent of the webinar is thus to recognize and work out significant ways to bring forth sustainable development by harnessing synergies to regulate and restore the stressed ecosystems and biodiversity, which in the long run sustainably effects the socio-economic development and climatic change adaptation-outcomes.

About the College

St. Joseph's College (Autonomous), Jakhama is a private Christian (Catholic) Minority Institution, established and administered by the St. Joseph's College Society. It is the first College established by the Catholic Church in Nagaland. The mission of the college is to help form young boys and girls into enthusiastic visionaries, full of determination and confidence to change the course of their unique society and the world, but with respect for their unique customs, traditions. The College has been re-accredited with 'A' grade by NAAC and was granted Autonomous Status by UGC in the year 2018.

About the Department

Department of Botany, St. Joseph's College (Autonomous), Jakhama, was established in the year 2012, offering 3 years degree course in Botany (Honours). The department aims to form men and women with scientific temperament who will use their knowledge for the upliftment of the society. The department also strives to instill scientific acumen in the students in order to convey knowledge through research based activities while keeping in mind the ethical values as well. It encourages student to develop skills to make learning relevant in their day to day life and also boost their individuality and creativity.

NATIONAL WEBINAR

DAY 1: 12 August, 2021

INAUGURAL SESSION 9:30 - 11:00 am

Chairperson: Dr. Kizukala Jamir
Assistant Professor
Department of Botany
St. Joseph's College (A), Jakhama

Welcome Note: Dr. Fr. George Keduolhou Angami
Principal
St. Joseph's College (A), Jakhama

Keynote Address: Dr. Lohit K. Baishya
Principal Scientist (Agronomy)
ICAR, Nagaland Center

TECHNICAL SESSION I 11:00 - 12:00 am

Chairperson: Dr. Thejasenuo Julia Kirha
Assistant Professor
Department of Botany
St. Joseph's College (A), Jakhama

Resource Person: Dr. Lanukumla Ao
Assistant Professor
Head, Department of History
Don Bosco College, Kohima

Topic:
*Sacred Groves – Respositories of Rich Heritage and Tools for
Biodiversity Conservation: the Naga Chapter*

NATIONAL WEBINAR
DAY 2: 13 August, 2021

TECHNICAL SESSION II 10:00 - 11:00 AM

Chairperson: Ms. Neithongunuo Angela Belho
Assistant Professor
Head, Department of Botany
St. Joseph's College (A), Jakhama

Resource Person: Dr. Neizo Puro
Associate Professor
Department of Botany
Nagaland University, Lumami Campus

Topic:
Biodiversity and Sustainable Livelihood in the
North East Tribals of India

TECHNICAL SESSION III 11:00 - 12:00 AM

Chairperson: Dr. Hormila G. Zingkhai
IQAC Co-ordinator
St. Joseph's College (A), Jakhama

Resource Person: Er. Samuel Zeliang

Webinar Concept

The objective of the webinar on "Sustainable Chemistry and its impact on society" is to encourage individuals to become aware of the environmental and social issues which ultimately calls for the need to find sustainable methods to protect future generations and its overall impact on the current society that we live in.

Sustainable chemistry is a concept that integrates efficiently using chemicals to accommodate the needs of the ever changing human race as well as minimizing waste and toxicity.

With increase in population growth, change of climate, urbanisation and increase in consumption of resources etc, a need has developed with regards to sustainable practices in the human society.

Chemical sustainability aims to improve some important components like societal, ecological and economic impact in our present generation.

To achieve sustainable chemical processes and products, urgent research is needed to focus mainly on technological and non-technological solutions such as green technology, new catalysts, eco-friendly products, sustainable supply chain management, minimizing energy consumption, design of safer chemicals etc. are all important aspects of sustainable chemistry.

DAY 1: 27 August, 2021

Session I
10:00 am - 11:30 am

Chairperson :

Webinar on 'sustainable Chemistry and its impact'

DIMAPUR: Two-day national webinar on the theme "Sustainable Chemistry and its impact on Society" organised by department of Chemistry, St. Joseph's College (A), Jakhama came to an end on August 28. The webinar was held through Zoom online platform and offline modes.

Resource person of the first technical session, PDF, IIT Guwahati, Dr. Geetmani Singh Nongthombam presented a topic "Insights into the Chemistry of Steroids," where he cleared the misconceptions of its consumptions and how they function. He also spoke on its productions and side effects. The resource person of the second technical session, Asst. Professor, department of Environmental sciences, Nagaland University, Dr. Latonglila Jamir spoke on

Participants of the webinar.

"Sustainable Chemistry and Pharmaceuticals: Impact on society and Environment". She also spoke on the drug industries and its synthesis and presented the scope on its research.

On the second day, resource person, Asst. Professor, department of Chemistry, Rajiv Gandhi University, Arunachal Pradesh, Dr. Ramen Jamtia spoke on "Nanomaterials in Organic Synthesis".

He dwelt on how nano materials was impacting the society and how it was reshaping various fields like agriculture, medicines etc. He also presented on its extractions synthetically and by separation.

Later, head of department of chemistry, St Joseph's University, Dimapur, Dr. M Arockia Doss as a resource person spoke on "Design for Degradation", and highlighted on its pre-

vention and degradation.

After the technical sessions, vote of thanks was delivered by dean of Science, SJC(A), Jakhama, Rev. Fr. Peter Solo, wherein he thanked all the participants of online and offline modes, and expressed his gratefulness and satisfaction on how the resource persons presented the papers.

Earlier, on the first day, the first session chaired by Asst. Professor, department of Chemistry SJC(A) Jakhama, Senchumbeni Yanthan began with a welcome address by principal, St. Joseph's college (A) Jakhama, Rev. Fr. Dr. George Keduolhou Angami. On the second day, the first session was chaired by Asst. Professor, SJC(A), Jakhama, Madovi David and the second session was chaired by Asst. Professor, SJC(A), Jakhama, Gaijuliu.

A National Webinar on

ENTREPRENEURIAL POTENTIALS OF APICULTURE

Organised by the Department of Zoology

E-Certificate for all Participants

About the Webinar

Apiculture is an enthralling art which can be practiced as a hobby or as a full time occupation. Honey bees, being one of the most useful insect living in this planet not only serves as a pollinating agent but also provides humans with cherished products like honey, beeswax, propolis, royal jelly, bee venom, etc. Honey and its medicinal value has been embraced since the ancient times and with the advancement in technology the other bee products has made it to the cosmetic and therapeutic world. Being reminded about the increasing rate of unemployment and the colossal opportunities apiculture can furnish, this webinar aims to enlighten every participants about the entrepreneurial potentials of apiculture and the practical approaches to this mesmerizing science of beekeeping.

About the College

St. Joseph's College, (Autonomous), Jakhama is a Catholic institution of higher learning and is managed by the Diocese of Kohima, Nagaland. It aims at imparting quality higher education that is based on the Christian vision of life. Catholic education stresses upon the formation of the whole person by recognizing and developing the vast potentialities latent in student in a balanced manner, taking into account the student's socio- cultural context.

About the Department

The Department of Zoology, St. Joseph's College (Autonomous), Jakhama, established in 2012, offers 3 years degree course in Zoology with the aim to provide quality education in various branches of Animal Sciences while imbibing in the students good social, moral and ethical values. The department stresses upon skill and research based activities to enhance their knowledge, critical thinking and reasoning skills; inculcate a sense of responsibility and bring forth the fore dormant leadership qualities, creativity and individuality; awaken the spirit of resource conservation and love for nature and encourages the students for self employment in various applied branches of Zoology.

Concept Note

India is known as the startup hub of the world with multiple young and dynamic Indians taking the path of entrepreneurship, which is not only driving them forward but the entire country's economy by creating a favourable ecosystem of service and resource providers. Today's generation needs the requisite knowledge base to accept the entrepreneurial challenges that enables the educated young talents to look for an independent career path and their skills which requires the right environment to be created by the policy makers, government programs, a number of private funds, mentors, agencies and service providers to enter the arena to further accelerate the trend.

Keeping in mind the unemployment rate in the country, we need to provide a platform encouraging young minds to indulge into it. The webinar aims to discover and throw light on the recent trends in entrepreneurship and the support systems that supports and uplift the entrepreneurs in the current context in India.

About the Margdarshak Advisory

Margdarshak Advisory as an organization aims at creating the Support System required for Entrepreneurs through collaboration, partnerships, mentoring, and by developing a multi-dimensional and interdisciplinary platform for North East India with its Headquarters in Guwahati.

About the College

St. Joseph's College (Autonomous) Jakhama, is a Catholic institution of higher learning established and managed by the Diocese of Kohima, Nagaland. It is the first college established by the Catholic Church in Nagaland in the year 1985. The college aims at imparting quality higher education based on Christian values and Principles. The mission of the college is to form men and women who are intellectually alert, morally upright, religiously oriented, socially conscious, culturally distinct and nationally integrated.

The college offers degree courses in Arts, Commerce, Business Administration and Science. Masters degree in English, Sociology, Political Science, Economics and History and also various Diploma and Certificate courses in various fields. The college has been Accredited with "A" grade by NAAC and was granted Autonomous Status by UGC in the year 2018.

About the Department

The department of commerce aims at imparting organizational skills, accounting skills, soft skills as well as capacity building and managerial skills among students. The department strives to incorporate skill based education so as to empower the students to be self-reliant and instill in them a sense of entrepreneurial thrust.

PARADIGM SHIFT IN EDUCATION FOR 21ST CENTURY: NATIONAL EDUCATION POLICY, 2020

ABOUT THE SEMINAR

With the rapid change in the knowledge landscape along with the change in the employment sectors and global ecosystem, it is becoming important that the learners not only learn but learn how to learn. Education must shift from mastery of knowledge content, to learning about how to think critically and solve problems, how to be creative and multi-disciplinary, and how to innovate, adapt, and absorb new materials. The present learning system by rote can be beneficial in certain specific contexts; however, pedagogy and curriculum must evolve to make education more experiential, holistic, integrated, discovery-oriented, learner-centred, discussion-based, and flexible. Moreover, education must build character, enable learners to be ethical, rational, compassionate, and caring, while at the same time prepare them to handle themselves in 21st century. Accordingly the curriculum must envisage the inclusion of basic arts, crafts, humanities, games, sports and fitness, languages, literature, culture, and values, in addition to science and mathematics, to develop all aspects of learners' intellect and make education more well-rounded, useful, and fulfilling to the learner.

In view of the above, the National Education Policy of the 21st century has been framed to address the many growing issues in education and developmental imperatives in India. This Policy proposes the revision and revamping of all aspects of the education structure, including its regulation and governance. It also aims to create a new system that will prepare the learners to face the 21st century issues and be in tune with our traditions and value systems. The National Education Policy 2020 tries to address the above issues and concerns so as to bring up the quality of education in the country that will tap the creative potential of the individuals to blossom in life. Therefore, it has become imperative that we become aware of this great plan of the education policy and in our own context implement the policy so that we gear up the quality of education. In this pursuit, the Department of Education in collaboration with IQAC of St. Joseph's College (Autonomous) brings to you an exploratory study on the National Education Policy 2020 to gear ourselves for a paradigm shift in education for 21st Century.

ABOUT THE DEPARTMENT

The Department of Education was established on 1st July 2013, with the aim to enable students to bring out the best in them by building their confidence and to develop their skills, to motivate students to acquire the latest knowledge through research and social interaction and to enhance students' efficiency and effectiveness.

About The Department

With the establishment of Nagaland University in 1994 followed by the permanent affiliation of the college in the same year, the department of History came into existence as one of the five courses offered in the college. The department strives to fulfill its goal of preparing students in knowing their roots and of moulding them into catalysts of legacy, thus, upholding its motto: "Recall, Refer, Retell". Its objective is to facilitate students' critical thinking and analytical skills, to acquaint them with the tool of interpretation, and to build students' awareness of the diverse and complex human, social, cultural, political and economic institutions.

Presently, the department offers even Post-graduate Course besides Undergraduate Course.

About The Webinar

The world's largest online e-Learning Platform needs a little more delving in for a better understanding and implementation of the program. Launched on the 9th of July 2017, SWAYAM has been a learning tool for the curious few. An initiative under the then Ministry of Human Resource Development (MHRD) now Ministry of Education, SWAYAM offers 2000 courses and covers all advanced education, High School and Skill Sector Courses in Collaboration with AICTE (All India Council for Technical Education) and Microsoft.

Manipur University
Imphal, Manipur

CONCEPT NOTE

According to World Trade Organization (WTO) Intellectual property rights are the rights given to persons over the creations of their minds. In this vast and competitive environment where there is a large-scale practice of piracy, counterfeiting and theft of intellectual property, protection of ideas is crucial. Intellectual property rights protection is also critical for fostering innovation. In India, universities and public research institutions are among the top contributors towards innovation and research. As such, to promote innovation and creativity, National Intellectual Property Rights was approved by Union Cabinet in May 2016. Protecting and managing one's research work and also having knowledge on the rights related to authorship in connection with research publications are some of the most important benefits of IPR for researchers. With the advancement in technology copying the work of others from internet has become much easier. Therefore, researchers need to be made aware about the issue of plagiarism because in academic it is a serious ethical offence. Providing awareness regarding timely filing of copyrights and patents is a need of the hour so as to avoid disputes with other researchers.

ABOUT THE DEPARTMENT

Motto : To Excel and to Serve

The department of sociology was introduced in the college in the year 1994 as one of the subjects at the Bachelor Degree Level under North Eastern Hill University, Shillong. After its affiliation with the Nagaland University it was popularized under the headship of Late Rev. Fr. Dr. Alphonsus D'Souza also known as the Father of Sociology in Nagaland. At present, the department offers sociology both for the undergraduate and post graduate courses. The total strength of the department today is 488 students with 8 teaching faculties at the UG and PG Level.

The department strives for the following objectives:

- To sensitize the students to the current socio-economic, political and cultural issues.
- To instill the values of serving the community and the underprivileged.
- To develop research culture among the students.
- To prepare the students to be successful in their academic and extracurricular activities.
- To help the teaching faculties to strive continually for excellence.

ABOUT THE COLLEGE

St. Joseph's College (Autonomous), Jakhama is a Catholic institution of higher learning and is managed by the Diocese of Kohima, Nagaland. It aims at imparting quality higher education that is based on the Christian vision of life. Catholic education stresses upon the formation of the whole person by recognizing and developing the vast potentialities latent in student in a balanced manner, taking into account the student's socio-cultural context.

ABOUT CIPAM

CIPAM is a professional body under the aegis of Department for Promotion of Industry and Internal Trade (DPIIT) which ensures focused action on issues related to IPRs and addresses the 7 identified objectives of the policy. CIPAM assists in simplifying and streamlining of IP processes, apart from undertaking steps for furthering IPR awareness, commercialization and enforcement. CIPAM in partnership with industry associations has conducted IPR awareness programmes in various states. The IPR Awareness Campaign is being conducted in schools, universities and industries across India.

Workshop on Techniques of Ethnographic Film Making 2022

A one day workshop on ‘Techniques of Ethnographic Film Making’ based on the Skill Enhancement Course SOC 4.4 Techniques of Ethnographic Film Making in UG Syllabus was held on 5th June 2022 for the Undergraduate students of 4th Semester Sociology organised by the Department of Sociology headed by Mrs. K. Alibo Achumi. All together 137 students participated in the workshop. The resource persons for the workshop were: Mr. Betoka Swu, Photographer/Educator and Technical Head, TCHP North East Christian University and Mr. Roka Dikha, Videographer/ Editor, Team HIYO from Dimapur.

The workshop consisted of 3 Sessions, the first session was on the topic of ‘Anthropological Film Making and Ethnographic studies and Ethics of Film Makers’ and the second session was on ‘Different types of Camera Shots and Movement’ and the third session was a practical session on handling camera and other equipments.

1ST DAY
08, NOVEMBER, 2022
TOPIC : "WHO ARE YOU"?
Venue: AUDITORIUM, SJC

INAUGURAL SESSION : 9.30 -10.00
1ST SESSION : 10.00- 11.00
TEA BREAK : 11.00-11.30
2ND SESSION : 11.30 -12.30
LUNCH BREAK : 12.30-01.15 PM
GROUP WORK : 01.15 -02.00 PM
3RD SESSION : 2.00- 3.00 PM

2ND DAY
9, NOVEMBER, 2022
TOPIC: Team Spirit and Leadership

1ST SESSION : 9.30- 10.30
TEA BREAK : 10.30-11.00
2ND SESSION : 11.00 -12.30
LUNCH BREAK : 12.30-01.15 PM
GROUP WORK : 01.15 -02.00 PM
3RD SESSION : 2.00- 3.00 PM

3RD DAY
10, NOVEMBER, 2022
TOPIC: Problem Solving and Decision Taking

1ST SESSION : 9.30- 10.30
TEA BREAK : 10.30-11.00
2ND SESSION : 11.00 -12.30
LUNCH BREAK : 12.30- 01.15 PM
PRESENTATION : 01.15 - 02.00 PM
3RD SESSION : 2.00- 3.00 PM
CONCLUSION : 3.00 - 3.30 PM

4TH DAY
11, NOVEMBER, 2022
TOPIC :Group Values
Venue: AUDITORIUM, SJC

INAUGURAL SESSION : 9.30 -10.00
1ST SESSION : 10.00- 11.00
TEA BREAK : 11.00-11.30

Valedictory Address : Dr. Nokhwenu Veronica
Deputy Director
Dept. of Higher Education,
Govt. of Nagaland
Kohima, Nagaland

Vote of Thanks : Fr. Peter Solo
Dean of Science
St. Joseph's College (Autonomous)

Although, the UGC in accordance with NEP 2020 has promulgated a student-centric Curriculum and Credit Framework with added benefits for the students, for the NEP 2020 to be brought to its desired fruition, the academic members of institution have to be trained and be convinced of the new Curriculum and Framework. Unless proper orientation on NEP 2020 is provided to the academicians, especially the faculty members who come into direct contact with the learners, the NEP 2020 would be treated as a burden rather than boon of opportunities. Thus, lots of cloud on NEP 2020 have to be unveiled for faculty members so that they are at ease with the student-centric Curriculum and Framework. Once the NEP 2020 becomes handy to the faculty members, the new Curriculum and framework shall no longer be a burden but a treasure trove for the teaching faculty members to re-discover in themselves the responsibilities, duties and joys to be dependable human being, and not just be over concerned about intellectual domains forgetting they are interacting with individuals who are the millennials and the future of the society.

With such felt need before the institution, the intention of this proposed workshop is to bring together academicians to share insights on transformative, innovative and quality education in Higher Education Institutions. It is expected that the proposed workshop would provide a required platform for the academicians to learn and develop professional growth of teaching-learning which in return will contribute and reshape sustainable development of the students and country. In line with this, the proposed workshop would also help the academicians to develop professional work effectively.

About the Workshop:

Education in India aims to develop all round development of the individual not forgoing the individual's physical, cognitive, moral and social dimensions. The National Education Policy (NEP 2020) once again re-focuses on what high education in India has to be i.e., to develop good, thoughtful, well-formed and creative individuals who shall be blessings to herself/himself and to the society. Keeping in view of the holistic development of the individual, the NEP 2020 necessitate a paradigm shift in the Indian Education System, especially in Higher Education. In this tectonic shift, the NEP 2020, brought in lots of freedom for students to shape them holistically, and not only cognitive development, which was the main stay of the then education Policy, but also focuses on other domains which would make an individual skilful and a dependable human being.

Thus, the main features of the NEP 2020 Framework are:

- Flexibility to move from one discipline of study to another;
- Opportunity for learners to choose the courses of their interest in all disciplines;
- Facilitating multiple entry and exit options with UG certificate/ UG diploma/ or degree depending upon the number of credits secured;
- Flexibility for learners to move from one institution to another to enable them to have multi and/or interdisciplinary learning;
- Flexibility to switch to alternative modes of learning (offline, ODL, Online learning, and hybrid modes of learning).

75 YEARS OF INDIA'S ACHIEVEMENTS: IDEAS AND RESOLVE

Organised by :
Internal Quality Assurance Cell (IQAC)
St. Joseph's College (Autonomous)
Jakhama, Nagaland

Sponsored by :
Indian Council of Social Science Research
New Delhi

DATE: 14th & 15th APRIL, 2023

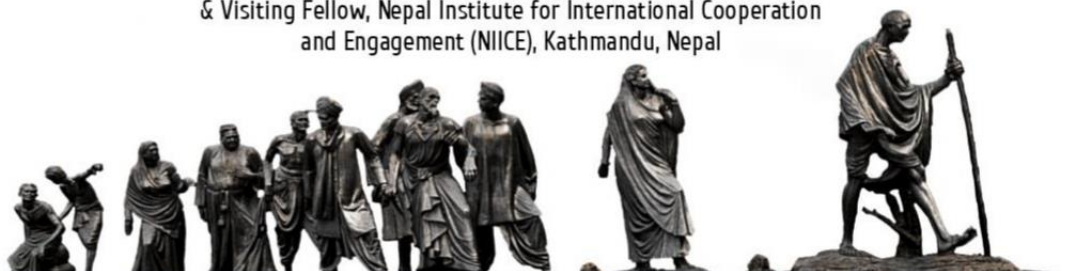

Venue : St. Joseph's College (Autonomous), Jakhama, Nagaland

Keynote Speaker

Dr. Abhiruchi Ojha

Assistant Professor, Department of Politics and Governance,
Central University of Kashmir
& Visiting Fellow, Nepal Institute for International Cooperation
and Engagement (NIICE), Kathmandu, Nepal

Concept Note: As India celebrates her 75th years of independence, there are reasons enough to recount how she can keep the democratic ideals alive thereby commanding respect and holding her head high amongst the nations of the world. Looking back in time, from the painful birth of a nation that witnessed one of the most horrific events of partition till the recent world wide pandemic caused by COVID-19 which confronts India, the Platinum Jubilee Anniversary Independence of this great nation comes at the heel of a crisis with a heavy price. Yet, India as the "best-in-class" has every now and then displayed an indomitable spirit of resilience in the midst of all these challenges and weathered many storms. Not only has she been able to triumph over all the obstacles but as a nation, with an illustrious history of around 5000 years of civilisation, considered as one of the ancient and oldest civilizations, she has come out glorious in the face of all these challenging adversities. So this national seminar on "75 years of India's Achievements: Ideas and Resolve", as part of the '75 Azadi Ka Amrit Mahotsav' initiative is a fitting reflection of the achievements India has made on the various front so as to assess, learn and build upon these positive factors that have helped steered her course of history. These are factors that have been instrumental in moulding and propelling India's tryst with destiny and if harnessed properly they have the potential to catapult her to glorious heights in the future.

Therefore, as part of '75 Azadi Ka Amrit Mahotsav' it is vital to reflect upon the achievements and progress made in diverse fields and facets of life so that with this valuation of the challenges, success and achievements one can make a comprehensible construction of what constitutes these progressive factors, ideas and values. However, the aim of this seminar does not end simply in the exercise of capturing the progressive spirit embodied in *Atmanirbhar Bharat* but in understanding how such factors are in play, in relation to India's socio-cultural, political and economic identity. The end-goal is to instil, nurture ideas and resolve to implement programmes and policies that not only helps in nation building but aid citizens in overcoming challenges in their daily lives. It also endeavours to contemplate upon quintessential ideas and resolves which will enable us to effectuate the '*Panch Prar*' - Viksit Bharat (Developed India), Removing every ounce of Gulami (slavery) in us, Work on the pride for our Glorious Heritage, Ensuring Unity amongst all citizens and Fulfilling our Fundamental Duties, in anticipation of the nation's 100 years of independence in 2047. The aim of this initiative will also be to ensure how such exercise will help further strengthen the country's performance at large and give rise to new dreams and opportunities.

These airports are also connected to Bengaluru, Delhi, Kolkata and Guwahati. From Airport taxis are available to Kohima. Distance from Kohima to Jakhama is 17 km and taxis are available.

Nearest Railway Station: The nearest railway station is Dimapur Railway Station (Distance is 81.9 km to Jakhma) and is well connected to the major cities of our country. From railway station taxis are available to Kohima and Jakhama.

Important Dates:

1. Dates of the Seminar: 14th & 15th April, 2023
2. Last Date of Abstract Submission: 1st March 2023
3. Notification of acceptance of Abstract: 6th March, 2023
4. Last date of submission of full paper: 6th April, 2023
5. Last date of Registration: 7th April, 2023

Information:

Accommodation: Accommodation could be arranged on request in hotel/home stay/guest house, but the participants will have to bear the expenses. The hotel/home stay/guest house rents are affordable. Alternatively, they can arrange accommodation directly. The organising committee will announce the hotel/home stay/guest house later. No TA/DA will be provided to the participants except the invited speaker/chairperson.

Climate of Jakhama in April: The temperature in April generally reaches a high of about 27° C during daytime and the average minimum temperature comes down to 19° C at night. The relative humidity level is about 67% for the same period.

Nearest Airport: The nearest airports are Dimapur Airport, Dimapur (Distance is 77.4 km to Jakhama) and Bir Tikendrajit International Airport, Imphal (Distance is 127.1 km to Jakhama).

**Call for Paper:**

Seminar papers are invited from university/college faculties, academicians and research scholars on the above mentioned themes.

Guidelines for Submission:

1. Abstract should be upto 250 words including the keywords in an MS-word format. All submitted abstracts will undergo a blind review.
2. In order to ensure uniformity, a word limit of 4500-6000 words is desired for the full paper. The APA style should be adopted for citation and references.
3. All documents must be submitted in Microsoft Word format using Times New Roman in font, size 12 with spacing of 1.5 between lines.
4. Paper contributors should clearly mention their name along with their institutional affiliation, current position, email ID and mobile number.
5. It's the author's responsibility to ensure that all references and citations are correct, and that the contribution does not contain any material that infringes copyright, or is defamatory, obscene or otherwise unlawful or litigious. And it would be greatly appreciated if the contributors can attach a copy of the plagiarism report with their paper.
6. Abstract and full papers should be submitted to sjacprograms@gmail.com
7. Selected papers will be published in the form of Edited Book with ISBN after the seminar.

Registration Fee:

1. Faculty Member/ Academician (Paper Presenters): Rs. 1000/-
2. Research Scholar (Paper Presenters): Rs. 500/-
3. Participants without Paper: Rs. 200/-

Objectives of the Seminar

1. To reflect upon the achievements and progress made in diverse fields and facets of the Nation so as to comprehend the factors that are in play, in relation to India's socio-cultural, political and economic identity.
2. To construct, instil and nurture the progressive factors, ideas and values and resolve to implement programmes and policies based on those ideas and values which can bring further the nation building as well as aid the citizens in overcoming challenges in their daily lives
3. Endeavours to contemplate upon quintessential ideas and resolves which will enable us to effectuate the '*Panch Pran*' - Viksit Bharat (Developed India), Removing every ounce of Gulami (slavery) in us, Work on the pride for our glorious heritage, Ensuring Unity amongst all citizens and Fulfilling our Fundamental Duties, in anticipation of the nation's 100 years of independence in 2047.

Sub-themes of the Seminar

1. Human Resource of India- i. Women ii. Youth iii. Student iv. Diaspora
2. Nation's Growth and Development- i. Village ii. Economy iii. Education d. Entrepreneurship e. Environment f. Infrastructure e. Technology d. Nation's Security e. Justice
3. India's Engagement with the World Nations- a. Foreign Policy b. Defence c. Nation's Peace and Development d. Economy and Nation's Stability
4. India's Heritage- a. Culture and Identity b. Art c. Tradition c. Religion d. Customs e. Traditional Knowledge
5. Challenges to India's Democratic Credentials
6. Sustainable Development of India vis-a-vis Act East Policy
7. Challenges and Prospects of India's Unity and Diversity
8. India @ 2047: Aspirations and Challenges

Seminar, activities on rural industries at SJC (A)

DIMAPUR, FEBRUARY 5 (MExN): A seminar, debate and essay competition on topics related to rural industries was held at St Joseph's College (Autonomous), Jakhama on February 2. It was organised by the Department of Economics under the initiative of People's Education Programme sponsored by Khadi and Village Industries Commission (KVIC), Dimapur, Nagaland.

According to a press release received on Sunday, the topics for essay and debate competition were on 'Relevance of Rural Industries in Indian Economy' and 'Development of Village Industries is a pre-requisite for India's Economic Growth.' The seminar was conducted in the presence of Sanipongen, DCO (KVIC) as the guest speaker and YK Shohe, Assistant Director (KVIC) as the keynote speaker.

In his keynote address, Shohe mentioned that the programme is especially designed for the students in order to make them aware about the several Government Schemes which they can utilise to the fullest. He emphasised on how students should be the employment generator, not the employment seeker.

Sanipongen talked on the history of KVIC and its functions. He also stressed on Prime Minister's Employment Generation Programme (PMEGP) mentioning about the eligible conditions of beneficiaries, EDP training, etc, it said.

The programme which was hosted by Bakon commenced with a welcome address by Fr Dr George Kedulhou Angami and Sr Dr Ranit invoked God's blessings. The HoD gave away a token of appreciation followed by a special song by Graceme and the vote of thanks was pronounced by Vishekhoto, President, Department of Economics, the release stated. The session ended with an interactive session.

DEPARTMENT OF ENGLISH
ST. JOSEPH'S COLLEGE (AUTONOMOUS)
JAKHAMA,

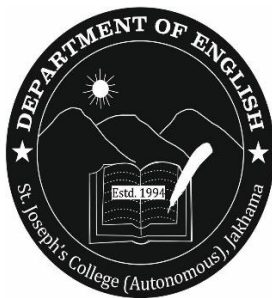

SEMINAR ON SOFT SKILLS

A Seminar on Soft Skills was held on 4th May 2022 for the BA English students of 4th and 6th Semesters at the College Auditorium, at 1:00 pm, with Mrs. Susan Angami, Founder of Educ Communication Centre, Kohima, as the resource person. The welcome address was delivered by Mr. Neizosie-o Jude, Assistant Professor, Deptt. of English, followed by the resource person.

She enlightened the students on the subject of Soft Skills: emotional intelligence, teamwork and the four basic emotions of human beings. Most importantly, she spoke about the ways a person can enhance their emotions and navigate through it. The resource person also interacted with the students.

The Seminar concluded with a vote of thanks by Ms. Moanaro Jamir, President of the Department. She thanked the resource person for exuding soft skills not only through her lecture, but also through her personality. She further congratulated the department, particularly the soft skills teachers for organising such productive and educational seminar.

SEMINAR ON
BLENDED MODE OF LEARNING

7TH MAY 2022
9:30 AM

VENUE
COLLEGE AUDITORIUM
ST. JOSEPH'S COLLEGE (A), JAKHAMA

ABOUT THE DEPARTMENT

The department of English, St. Joseph's College (A), Jakhama was established in the year 1994. The department offers UG and PG courses. The department aims to increase self-awareness of the students about English literature, and to understand the process of communicating and interpreting human experiences through literary representation using historical, social and cultural contexts. The department encourages the students to think beyond their comfort zones, to face challenges and to explore beauty in art as the department motto implies.

ABOUT THE SEMINAR

NEP 2020 comes with reformation to the existing policies of Education in the country. Blended Mode of Learning is one which will change the future mode of learning which primarily focusses on students' flexibility/students' centrality. Given the emergence of digital technologies and the emerging importance of leveraging technology for teaching-learning at all levels from school to higher education, the NEP 2020 recommends for use of blended models of learning. The recent pandemic has brought a major change in the education system of our country, and keeping in mind the current situation, the UGC is drafting a concept on a blended mode of teaching and learning in varsities and colleges. As a result, the art of combining digital learning tools with more traditional classroom face to face teaching gave birth to the term "Blended Learning".

An Introduction to Astronomy and Astrophysics

About the Webinar

Impact of human curiosity to comprehend the very nature of existence & to find answers to the very preeminent questions,
" What is the Meaning of Life"
" When and How did it all Began",
has led humanity to further venture into the realm of the giants and supergiants:
Stars and galaxies.

Much advances towards understanding the complexities of the universe has been made. Technological advancements and sophistication of tools and instruments for the detection, observation and even exploration of celestial bodies has been greatly furthered. And all this has immensely aided to increase our understanding and knowledge of the physical universe, even leading humanity to seek towards the goal of expansion of human civilization beyond our Planet.

In recent times, humanity has been witnessing far greater motion towards the research and exploration of the heavens. Participation and investments of Non Governmental agencies towards research and development of space vehicles and technologies for space exploration has been growing immensely, even providing for a field of adventure and a career to pursue in this ever evolving scientific world. Therefore in light of the time that is and that which is to come, this webinar intends to communicate the ideas and developments in the field of Astronomy and Astrophysics providing a gist of the subject and to incite the curious minds to undertake this adventure to Look up and Beyond.

About the Department

The Department of Physics was established in 2019 with the aim to produce quality students, to provide the student with a broad understanding of the physical principles of the universe , to help them develop critical thinking and quantitative reasoning skills, to empower them to think creatively and critically about scientific problems and experiments.

PLASMA POPULARIZATION PROGRAMME

ORGANIZED

BY

Centre of Plasma Physics-IPR, Sonapur, Assam

IN ASSOCIATION WITH

St. Joseph's College (autonomous), Jakhama, Nagaland

This Programme will introduce the participants to plasma, the fourth state of matter. Organized as a part of Azadi Ka Amrit Mahotsav, the celebration of the 75th year of independence of our country, this programme will consist of talks on basic concepts of plasma, its applications, research in plasma physics and includes a live demonstration of a glow discharge plasma.

Dr. Ngangom Aomoa,
Scientific Officer – D, CPP-IPR

SPEAKERS

Dr. Rakesh Moulick
Scientific Officer – D, CPP-IPR

Participants:

Any student from BSc and MSc program who are interested in going for higher studies and taking up a career in research.

Features:

Talks by experts
Interaction with experts
Live demonstration of Glow Discharge Plasma

Venue:

St. Joseph's College (autonomous)
19th March, 2022 (11:00am)

About CPP-IPR: Centre of Plasma Physics – Institute for Plasma Research (CPP-IPR) is a research centre of Institute for Plasma Research (IPR), Gandhinagar, Gujarat, an autonomous institute under the Department of Atomic Energy (DAE), Govt. of India.

About St. Joseph College: St. Joseph's College (autonomous), Jakhama is an autonomous Catholic institution of higher learning established and managed by the Diocese of Kohima, Nagaland. It is the first college established by the Catholic Church in Nagaland.

REPORT ON A TWO-DAY NATIONAL CONFERENCE

ON

“DYNAMICS OF NORTHEAST REGION: PERSPECTIVE OF THE 21st CENTURY”

A two-day National Conference on Dynamics of Northeast Region: Perspective of the 21st Century, was held at St. Ann’s College for Women, Mehdiapatnam, Hyderabad, on the 23rd and 24th of March 2023. The event was held in collaboration with St. Joseph’s College, Jakhama, Nagaland and sponsored by the Telangana State Council for Higher Education, Orange Shark and Siro Make-up Studio. The objective of the conference was to give an opportunity for students and scholars to explore the region's rich history, beauty, and distinctiveness. There were paper presentations from students of both colleges as well as other colleges and Institutions from Hyderabad. Some of the topics which were discussed include the role of Northeast states in India’s foreign relations, the rise of insurgency, food & languages, marriage culture, the Evolution of Mizo Bawh Hla: Mapping Structuralism to Deconstruction and many more. Addressing the audience during the inaugural session on the 23rd, Chief Guest, Dr. Christina Z. Chongthu, IAS, Commissioner & Secretary, Department of Tribal Welfare, Telangana Government said that in spite of not being a developed region as compared with other states, it has many aspects to develop. The inaugural was followed by 3 technical sessions which were chaired by professors from Hyderabad Central University. On the second and final day of the conference, 2 technical sessions were followed by a valedictory session where awards were given to the photo exhibition winner and the 3 best paper presenters. Miss Lungmila Longvah, Organizing Secretary, and Lecturer, Dept. of Political Science, St. Ann’s College for Women delivered the vote of thanks. The two day conference concluded with a cultural fest where students of both the colleges performed a folk song, ramp walk with traditional attire of the Northeast states. A special performance with the traditional music instrument of Garo was also performed along with the Tangkhul Folk song by the Northeast students of Calvin Institute of Theology, Hyderabad.

DAY ONE: INAUGURAL SESSION

DATE: 23rd March, 2022

TIME: 9:30 – 11:35 am

VENUE: AUDITORIUM

The two-day National Conference on North East started on March 23rd in the morning. A poem featuring a young girl praising nature served as the opening statement for the inaugural session. Following that, the children from Kalakruti's Dance Institution performed a lovely and stunning cultural dance, to which the entire audience responded with jubilation. Following then, our Principal, Dr. P Amrutha, welcomed our distinguished guests and invited them to the dais. The presenters gave the audience a thorough introduction to the North East and its culture.

The Chief Guest for the day, Dr. Christina Z Chongthu, IAS Commissioner & Secretary, Department of Tribal Welfare, Telangana Government, addressed the gathering. She conveyed her thoughts on the dynamics of the Northeast region in the twenty-first century. In her speech she talked about her experiences in Mizoram and illustrated its beauty through her words. She described the history of the North eastern states and the origins of the nickname "Seven Sisters." She talked about the tribes, the uniqueness of the Northeast, and the presence of 475 different ethnic groups there. Almost 400 languages and dialects are now present in the North East alone. According to her, social media has helped to gradually raise awareness of the Northeast Region's status as one of the diverse regions. Although it still deals with a few challenges. It's still important to concentrate on a few key areas. Folks in this region of the country continue to feel a sense of isolation even today.

The lack of progress in the areas of employment, infrastructure, and transportation still prevails. Unexpectedly, the region's literacy rate remains as high as feasible despite the challenges. North-east India has one of the highest literacy rates, with Mizoram leading the pack with 88.8%. North East India differs from other Indian states in that there are just as many private schools as public ones. In order to demonstrate their educational advancement, the rural population has access to schools within a distance of 1 km. Northeast is also called in many ways The "talent factory." Some of the best athletes, academicians, boxers, players, and athletes have come from this country. The Northeast region is on the rise and deserves the same respect, affection, and consideration as the other states.

Dr. Christina also discussed the necessity of strong leadership in order to spur regional growth. She thinks a good leader can give an organisation the respect and development it needs in addition to the recognition. In her concluding remarks she quoted "the Important thing in life is to have a great aim and determination for a better tomorrow".

Professor Ajailiu, Guest of Honor who is a member of the University of Hyderabad's faculty and the Head of the Department for the Centre for Social Exclusive & Inclusive Studies. In the Department of Sociology, she also works as a research associate. She discussed how people shift from one place to another and how this leads to life progress. In her speech she romanticises her stay in the North East.

From Nagaland to many parts of the globe. She exhorts the younger generations of today to develop and realise their full potential while presenting our traditions and elevating our country. She cautions the audience to remember their origins. She asserts that culture is essential to a thriving society. Numerous means exist for expressing culture. She argues that the exchange of information includes the exchange of culture. A period of wealth, growth,

and prosperity is built on the exchange of cultural knowledge. This dynamic could begin locally, but it is frequently made stronger through cooperation and coexistence with other cultures. Ma'am also spoke about the role of youth and the new economics of youth.

The keynote speaker, Professor Kham Khan Suan Hausing, Department Head of Political Science at the University of Hyderabad, then shared his perspectives on the Northeast Region's varied economic, linguistic, and cultural advantages. He concentrated on the aspects of the local area's ongoing development. He claims there have been developments in the Northeastern states in terms of roads, motorways, trains, and airports. This area is growing. According to him, the region has enormous potential that could be unleashed by building modern infrastructure and enhancing connectivity. According to him, growth in this area could lead the nation to new heights. Prof. Kham Khan discusses the North Eastern Region Power System Improvement Project (NERPSIP), which aims to boost intra-state transmission and distribution systems, as a significant step towards the North Eastern Region's economic development. He discusses the geographical location of the North East, its access to the traditional home market of Eastern India, and its proximity to the North-eastern states and the neighbouring nations such as Bangladesh and Myanmar. The North East serves as the cornerstone of engagement for India's foreign policy through ASEAN, and the states are crucial as the link between India and Southeast Asia. He concludes by saying India will always include the North East as a vital component.

Dr. Gracious Mary Temsen, Associate Professor at the University of Hyderabad's Centre for Applied Linguistics & Translation Studies, was the Special Guest for the day. She enlightened the students with her speech on the diverse linguistic community of the North Eastern Region. She talked about the linguistic significance of this region and how it affects India's international relations. She also discussed the emergence of insurgency, cuisine, dialects, and marriage customs. She put more of an emphasis on the Khasi tribe, its culture, and the languages of the North East.

A few elements to bring about change in Northeast society was presented by Dr. Mhonthung Yanthan, HoD, Dept. of Political Science at St. Joseph's College in Jakhama, Nagaland in order to advance society as a whole. He then urged the students to promote harmony and peace. He invited the students to come and visit Northeast where they can collaborate to discuss about the culture of Telangana so as to bring awareness even among the people of Northeast.

The vote of thanks was proposed by Ms. R Bhramara Sree, HoD, Department of Political Science, St. Ann's college for women, Hyderabad.

TECHNICAL SESSION- ITIME:

11:35-11:45 am VENUE:

AUDITORIUM

CHAIRPERSON: Dr. Venusa Tinyi, Associate Professor, Department of Philosophy, University of Hyderabad and

Dr. Rhelo Kenye, Guest Faculty at Centre for Comparative Literature, University of Hyderabad

Theme: Language, Agriculture, Food and Media of Northeast

The technical session I was chaired by Dr. Venusa Tinyi, Associate Professor, Department of Philosophy, University of Hyderabad and Dr. Rhelo Kenye, Guest Faculty at Centre for Comparative Literature, University of Hyderabad. The theme of the session was Language, Agriculture, Food and Media of North East. The student volunteers Madhurima, Sneha and Kajal handled the session. Four papers were presented by various students and research scholars. The session began with an address by the chair.

Presenter 1: The first paper was presented by Hajera from St. Ann's College for Women on the topic "North East Architecture". She talked on the Vernacular architecture of Northeast. She says vernacular architecture is based on bioclimatism developed and used through the centuries by many civilizations across the world. Different civilizations have produced their own architectural styles based on the local conditions. Her study was carried out on the vernacular buildings of north-east India across all the bioclimatic zones. Her study yields findings relating bioclimatism, socio-economic status and cultural setup to the vernacular architecture of the region.

Presenter 2: The following presentation was given by Meghana & Ananya, who discussed the "Cultural Palette of the 7 Sisters: Language and Food". Their paper analysed current studies on Northeast India's culinary culture and dietary customs. It acknowledges the research gap, draws attention to the scarcity of literature on food as a political and cultural issue, and highlights the potential for further investigation into Northeast India's food culture and identity. It examined the available research on dietary practises in Northeast India to determine the study gap and emphasises the connections between North easterners' dietary beliefs and their home region. It also studied the centrality of dietary practices of the North easterners in defining their basic rights of living to the larger issues of citizenship.

Presenter 3: Vanrem Puii, Research scholar from English & Foreign Language University presented her paper on "The Evolution of Mizo Bawh Hla: Mapping Structuralism to Deconstruction". Her paper focused on mapping the changes and the evolution of one of the oldest forms of Mizo poetry – the Bawh Hla or war chant, sure to be increasingly valued by the Mizo people and invaluable to the culture – not just to reveal its history but to reveal its present. Its evolution from the rule bound, pseudo-ritualistic traditional form to the artistic modern Bawh Hla, as a contributor to art and culture alongside the theories of Structuralism and Deconstruction. She believes that the literature and the performative theatricality treated as a single text will unearth the unmistakable parallels of its evolution from the traditional to the modern with that of the one made in theory from Structuralism to Deconstruction – both of the evolutions ultimately reflect the change in culture and the human condition. The

underlying structural archetypes of the traditional Bawh Hla are identified and the liberties of Deconstruction are used to explore the modern ones.

Presenter 4: Zahra, BA final year student presented her paper on “Northeast and its pursuit of Incorporating the mainstream media: A comparative study of Northeast and Kashmir”. Zahra provides a comparative study of Kashmir and the Northeast, two of India's volatile border regions. Geographical isolation, secessionist and rebel movements, extensive militarization, and outside interference characterise both regions. Conflicts, however, arise on a variety of levels in the Northeast because of the region's extraordinary cultural diversity and uniqueness. However, Pakistani irredentism, the presence of Hindu nationalism, and communalism all contribute to the ethnic situation in Kashmir.

Following the presentation, there was an extended debate with the day's chairperson.

TECHNICAL SESSION II - PARALLEL SESSION
VENUE: AV ROOM

TIME: 11:35-11:45 am

**CHAIRPERSON: Dr. Limakumba Walling, Assistant Professor, Department of Economics,
University of Hyderabad**

THEME: Economy, Agriculture & Political Institution.

Presenter 1: Sahana Munagala Chetty presented a paper on the Study of the economic landscape of Assam, Arunachal Pradesh and Meghalaya. She says that the easternmost part of India, officially known as the North Eastern Region (NER), serves as the geographical and political-administrative division of the nation. Her presentation revolves around Arunachal Pradesh, the Land of the Rising Sun, Assam, the gateway to northeast India, and Meghalaya-the abode of clouds, are three pivotal states. She highlights the economic landscape of the three northeastern states, their contribution to the economy of India, the sources of income, the structure of the workforce and the role of women, shifts in economic growth, productivity and developmental drift of the agriculture, manufacturing and service sectors, employment and trade opportunities and patterns, population, geoeconomic significance, and the revenue framework. She presents a comprehensive study of the active and evolutionary contribution of the states Assam, Arunachal Pradesh and Meghalaya to the Indian economy in a progressive manner and addresses the economic approaches and influence of the three states, the highs and lows of their sectoral activities and the extent of their development.

Presenter 2: "Impact of Urbanisation in Assam " was the topic of Zainab Sajid's subsequent study. Despite the fact that our economy is predominantly rural, she claims there has been a significant tendency towards urbanisation in India, especially after independence. One of the traditionally rural Indian states, Assam is home to a people whose main occupations are farming and related pursuits. However, there has been a rising trend towards urbanisation over time, which gained strength in particular during the post-independence era. The study's major focus is on the increase rate of Assamese cities' urban populations in the second half of the 20th century and the factors that contributed to it.

Presenter 3: The paper on Northeast India's agricultural strategies was presented by Mythili and Jemima Joseph. The North-Eastern Region (NER), which is made up of the States of Assam, Arunachal Pradesh, Manipur, Meghalaya, Mizoram, Nagaland, Tripura, and Sikkim, among others, is known for its fertile soil and an abundance of water resources. She argues

that the shortcomings endanger the local economy rather than maximising the potential of these strengths into opportunities. In an effort to diagnose the issues facing regional agricultural economies in the context of changing circumstances, she also examines future prospects, identifies the drivers of agricultural growth and their limitations, and outlines creative, people-centered policy interventions for agricultural development.

Presenter 4: Paper on Traditional Political Institution of Konyak Naga was presented by Mongo Lam, MA final year student from St. Joseph college Nagaland. He highlighted how this tribe has a system called as Angh who is considered as the head of the Konyak tribe. He also explained about the Longwa village of Konyak which is situated in two countries i.e., India and Myanmar.

TECHNICAL SESSION III

VENUE: AV ROOM TIME:

2:00-3:00pm

CHAIRPERSON: Dr. Mhonthung Yanthan, HoD, Dept. of Political Science, St.

Joseph's College Jakhama, Nagaland.

THEME: Insurgency in the state of Nagaland

Presenter 1: Mehvish Presented her paper on the topic “Insurgency in Nagaland”. She introduces the Naga struggle, its history, political and territorial entanglements, complexity, and, after the 1997 Indo-Naga ceasefire, post-ceasefire practices and patterns. The presenter began her presentation with a vignette that details a mass protest in Dimapur against excessive rebel' taxes and the perceived degeneration of the long-lasting Naga Movement for Independence. She presents the concept of the "insurgency-complex" to make the case that, following long decades of political violence and volatility, the politics of the Naga insurgency, as well as the Indian state's response to it, have swamped the borders of political conflict and overwhelmed all spheres of social life. She discusses the difficulties and insights she encountered when conducting lengthy ethnographic research in a region that has a long history of bloody conflict and unstable political conditions.

Presenter 2: Manal & Rahiq, also talk about the “Role of insurgency to fulfil the demands of the Nagas”. They talked about the unfulfilled desires of the Naga people to be recognised apart from the Indians. Being a district (Naga Hills) in the state of Assam until 1957, the State of Nagaland Act, 1962 provided for the formation of the State of Nagaland as the 16th State in the Indian union on 1st December, 1963. With their cultural distinctions from Indian nativity, they make an attempt to highlight the atrocities towards Nagas with insurgent-related activities as they pushed towards achieving splintered goals. Their paper also reflects on certain aspects like, does Nagaland wish to secede from India? The disparage faced by them. And, the erroneous question of Nagas fighting for independence.

Presenter 3: K Deepika presented her paper on “Traditional Judiciary System of Northeast Region”. She reflects on the unique geopolitical areas in the Northeast Region and calls it the most culturally diverse regions in the world. She talks about the traditional judicial systems practised in this region. Her paper examined the various forms of administration for non-adversarial dispute resolution mechanisms in North East India, that made inexpensive,

efficacious and speedy justice accessible to the public by bridging the gap between people and judicial systems. It further talked on the amendments in the procedural law of India to incorporate these methods. Her paper briefly looked at various aspects of whether these methods have been effective enough to be crystallized into a people-endorsed movement and replicated in other parts of India and whether similar models could be globally exported to bring more peace in society.

The day ended with a formal discussion on the paper presented by the students and research scholars. The chairperson gave his concluding remarks for the day.

DAY TWO - 24th MARCH, 2023

TECHNICAL SESSION 1

VENUE: AV ROOM TIME:

10:00-11:15AM

CHAIRPERSON: Dr. Bhim Subba, Assistant Professor, Head Department of Political Science, University of Hyderabad

THEME: Northeast Region in India's Foreign Relations

Presenter 1: Madhurima spoke on the Topic “India, China and the Indian State Arunachal Pradesh”. The speaker introduced the state Arunachal Pradesh that shares borders with three International Borders with three nations - Bhutan, China and Myanmar. She gave a brief history of Arunachal Pradesh. She spoke on the geo strategic significance of Tawang and Kibithu corridors. She gave some insights on major Chinese incursions in Arunachal Pradesh and the Sumdorong Chu Standoff in 1986-87.

Presenter 2: presented a paper on “India's Geopolitics And the Role of Northeastern states”. The speaker threw light on the situation of India and Northeast region. She says Northeast is the centre of attraction of conflicts because of its location. she focuses on the problems emerging due to its geographical location and the Security concerns it has with regards to its neighbours.

Presenter 3: Khadeeja & Leena Rayees of BA III yr presented their paper on the topic “The role of Northeastern states in improving Indo-Bhutanese Relations and whether it can be simulated with Indo-China border issues. The presenters aimed to understand how the Northeastern states helped in improving relations with Bhutan. They talked about the role of the states in the region and how it helps in improving relations with the neighbours.

Presenter 4: Syeda Uzma spoke on the topic “Conflicts among the states and with International borders”. She highlights the Border disputes between various states in Northeast India have been recurring since the 1960s, and reflects on the British policy of creating and recreating boundaries for administrative convenience. She says The need of the hour is to shape public opinion for peaceful borders and redouble efforts for a political solution to these decades-old disputes. China remains a major source of concern. Insurgency and political issues in the North-Eastern states are a result of accumulated anger due to political, economic and social causes. The Siliguri Corridor is a case in point, with a narrow width of only 17 kilometres isolating Northeast India. The impact of the India-China Border Dispute on Northeast is complicated, with Chinese claim of Arunachal Pradesh as its South Tibet,

unsettled borders, trust deficit, lack of identifiable demarcation of Line of Actual Control (LAC) and frequent spoilers like Doklam incidents. India has tried to mitigate the problem by establishing a rail route via Bangladesh, but it is not a strategic alternative. The Doklam crisis was Chinese intent to get closer to the corridor.

The session ended with the discussion and remarks from the Chairperson and he suggested the presenters to make sure that they mention the sources of maps, data while presenting.

TECHNICAL SESSION IITIME:

11:20AM-12:35PMVENUE:

AV ROOM

CHAIRPERSON: Dr. Sinjini Bhattacharya, Assistant Professor, Dept of PoliticalScience, St. Francis College for Women.

THEME: Role of Northeast Women & Festivals

Presenter 1: Thrishitha started the session by presenting her paper on “From Margin to centre: Examining Women’s participation in Northeast Indian Politics”. She talks about The under-representation of women in politics as a significant issue in North East India, where women's participation in governance is limited. Despite having a rich history of matriarchal traditions and the presence of strong women leaders in traditional tribal institutions, women's representation in modern democratic institutions is low. She says Women face significant cultural, social, and economic barriers to participating in politics, including limited access to education, patriarchal attitudes, and the dominance of male-dominated political parties. Efforts have been made to address this issue, including the reservation of seats for women in local bodies and the promotion of women’s political participation through awareness campaigns and capacity-building programs. However, these efforts have had limited success, and women’s participation in politics remains low.

Presenter 2: Vaishnavi presented her paper on “Women In Workforce”. She emphasised the requirement for gender equality in the workforce. She discusses how the Northeast still struggles to offer jobs to women.

Presenter 3: The paper on "Cultural perspective on marriage: A comparative study on various communities in Northeast India" was presented by Rovi Livi, Research Scholar, EFLU. According to her, the tribal population follows a different set of regulations for inter-tribal and inter-clan marriage. In North-East India, which is geographically remote, economically undeveloped, and home to a sizable tribal population, it is important to comprehend how marriage patterns among tribes are evolving. The Singulate Mean Age at Marriage (SMAM) among STs of the Northeast is reportedly greater than the ST of India, according to data from the Indian censuses of 2001 and 2011. The age difference between the spouses has also shrunk over time. The Mao, Paomai Naga, and Tangkhul Nagas of Manipur have the highest SMAM among the major STs in the Northeast. Although early marriage was encouraged by the Nagas in the past, the advent of Christianity has had a major impact on the marriage system. The introduction of Western education by Christian missionaries has significantly altered traditional norms.

Presenter 4: Sopou from St. Joseph’s College, Nagaland presented a paper on Negotiating Traditions: A Case Study on Hornbill Festival which is also referred to as Festival of Festivals which is celebrated for 10 days in the first week of December in Kohima, Nagaland.

She describes about how the different festivals of the various tribes in Nagaland come together as one during this festival and how the festival came to be known as Hornbill festival which is derived from the state bird.

The closing remarks was given by Dr. Sinjini Bhattacharya who chaired the session. She appreciate how the students have made put an efforts in gathering the information inspite of very limited secondary sources. The session ended with vote of thanks by G.Meghana.

VALEDICTORY

VENUE: AV ROOM

Chief Guest: Dr.Sr.P.Amrutha, Principal, St.Ann's College for Women

The Valedictory session was graced by Dr.Sr.P.Amrutha, Principal, St.Ann's College for Women. The college choir led the audience in prayer through a song and Bible reading. Leena Rayees who was the compere for the session welcomed sister principal and all audience. Then sister principal address the gathering encouraging the students to look forward and participate in such more events. She also thanked the, Dr. Mhonthung Yanthan, Department Head, St. Joseph's College Jakhama Nagaland for coming all the way to Hyderabad with his students for the event followed by appreciation from the later presentinga Naga shawl to the Principal and Mrs. Bhramara Sree, HOD, Dept of Political Science, St.Ann's College for Women. Dr.Sr.P.Amrutha announced the most awaited results for the best paper award and Best photo award handing over the Certificate, Mementoes and a cash award to the Winners. The best paper awards were given to Vanrem Puii followed by Leena& Khadeeja and Zahra Khalid. Nsungthung Erui was awarded the best photo award for his painting of a Naga warrior. Lungmila Longvah, Organising Secretary, Faculty, Dept of Political Science, St.Ann's College for Women proposed the vote of thanks extending her gratitude to the College management, the collaborators, auxiliary staff and to the students who have volunteered and made the conference run smoothly. She also thanked the Telangana State Council for Higher Education, OrgangeShark and Edward Siro for sponsoring the Conference. The session ended by singing the National Anthem.

NORTHEAST CULTURAL SHOW

VENUE: AUDITORIUM

The Northeast region of India is known for its rich and unique culture. To celebrate this and as a part of the Two-day National Conference on Dynamics of Northeast Region: Perspective for 21st Century, a cultural show was also organised apart from the sessions for presenting research paper. The event was hosted by Payal Mukhiya, faculty of the Dept. of Political Science, St.Ann's College for Women. The event started off with the performance of a Naga folk song by the students of St.Joseph's College, Jakhama, Kohima. Folk dances in the Northeast states are often are performed during festivals or to celebrate life. It is a very important aspects of life for the people living in this region. A cultural dance of three Northeast states – Bihu dance of Assam, Bamboo dance of Mizoram and Manipuri dance of Manipur were performed by the students of the College. A special folk song on invoking the blessings of the Almighty before sowing of the seed which is a festival of a Tangkhul tribe in Manipur

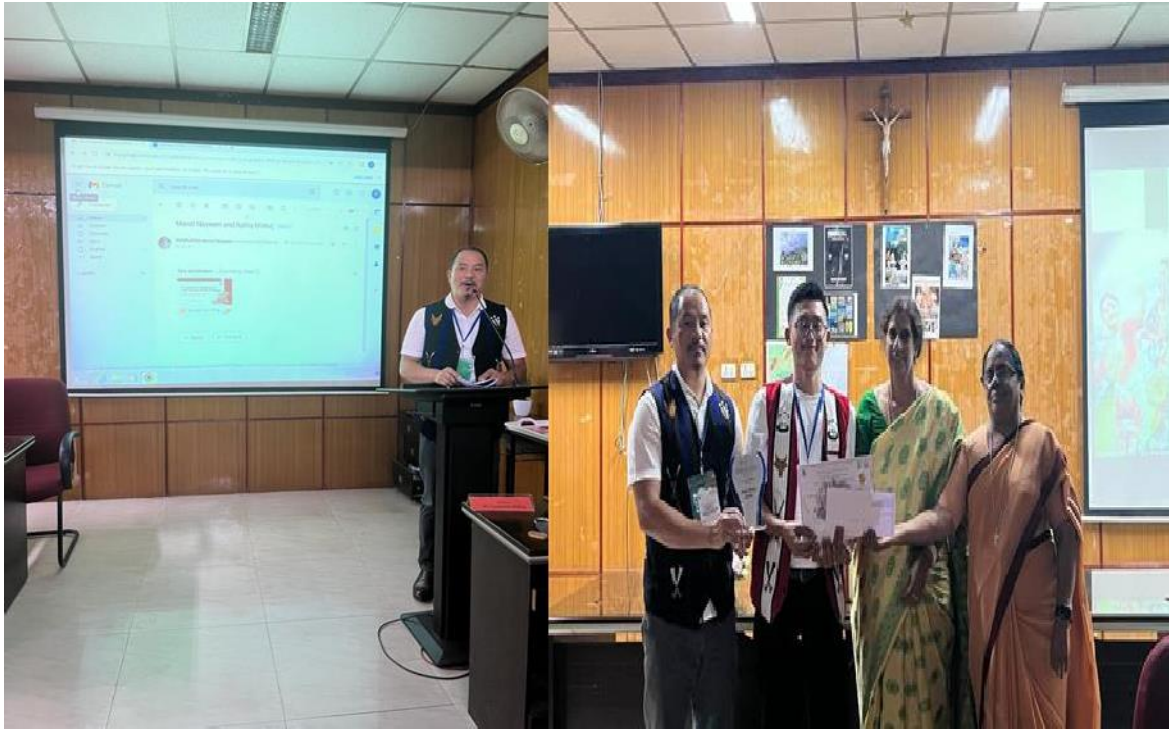

was performed by the students of Northeast studying in Calvin Institute of Theology. It was accompanied by the traditional music instruments called as Chigring made by bamboo which is used by the Garos of Meghalaya.

Cultural attire is an identity for the people of Northeast. To showcase the rich and colorful attire of northeast, the students as well as few of the working professionals from Northeast settled in Hyderabad participated in the ramp walk. The traditional attire of Arunachal Pradesh, Manipur, Assam, Nagaland and few of the tribes of Manipur were showcased. The event was made more memorable as the students of Kalakruti Dance Institute swayed to the tunes of a popular local songs.

ASANO PANELIST 1
IMALI PANELIST 2
RONGSEN PANELIST 3
AKHREZO PANELIST 4

ET IRSHAD SETHI MODERATOR

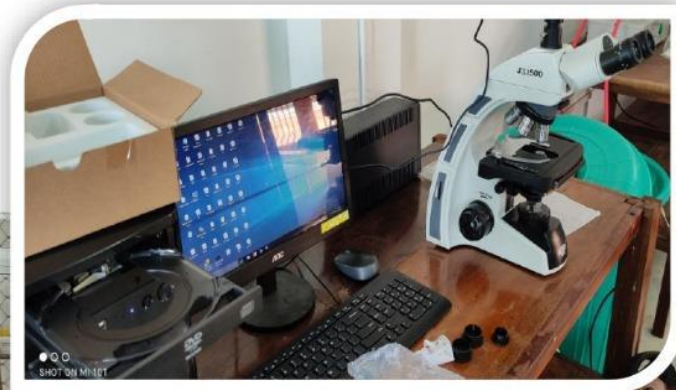

Faculty hands-on-training & Demonstration on Trinocular Advance Microscope with CMOS camera

Organized by the Department of Botany & Zoology,
St. Joseph's College (A) Jakhama,
in collaboration with
Microtech (Scientific & Engineering instruments), Dimapur.

Date: 19th August, 2022
Time: 12: 30 pm
Venue: Tissue Culture Lab

Features

- Calibration & Measurement
- Fluorescence colour composition
- Image Process
- Depth of Field
- Camera Control
- Image Stitching

Hands-on-training on RT-PCR

DATE: 21st and 22nd December, 2022.

VENUE: Guwahati Biotech Park (GBP)

1. PARTICIPANTS DETAILS:

PARTICIPANTS DETAILS				TOTAL NUMBER OF PARTICIPANTS
NUMBER OF MALE PARTICIPANTS	NUMBER OF FEMALE PARTICIPANTS	PARTICIPANTS FROM SJC(A)	PARTICIPANTS FROM OUTSIDE	
9	34	2	41	43

2. NAME OF THE RESOURCE PERSONS
- i) Dr. Rajesh Saha
Application Specialist
Department of Life Sciences
Bio-Rad Laboratories
 - ii) Dr. Saurav Dey
Scientist, Supervisor
Guwahati Biotech Park, Assam
 - iii) Dr. Prajjalendra Barooah
RA, Co-Supervisor
Guwahati Biotech Park, Assam

3. OBJECTIVE/S OF THE PROGRAM:

- i) To enable faculties to get hands on experience in understanding and developing skills in performing scientific experiments involving RT-PCR.
- ii) To enable faculties to become well acquainted with the working principle, special features and applications of the RT-PCR.
- iii) To encourage faculties to venture into different research fields.

4. OUTCOME OF THE PROGRAM

The participants particularly the faculties attained many valuable skills, applications and importance of RT-PCR. They also understood the basic difference between PCR and RT-PCR as well as the important need of acquiring the skills to perform RT-PCR accurately especially in the wake of the Covid Pandemic. Also the promising possibility of carrying out many research works or projects in life sciences using the RT-PCR was also an important aspect of the training which all the participants were made aware of.

Report on Hands-on Training on RT-PCR

Guwahati Biotech Park, Assam organized a 2 days Hands-on Training on RT-PCR or workshop on Real-Time-PCR on 21st and 22nd of December, 2022 at Guwahati. Ms. Neithongunuo Angela Belho, HOD, Department of Botany, SJC (A) Jakhama and Ms. Rukutalu, HOD, Department of Zoology, SJC (A) Jakhama attended the 2 days' workshop.

21st December, 2022: The workshop began at 10:00 a.m. wherein Dr. Saurav Dey, Scientist, Supervisor, Guwahati Biotech Park, Assam pronounced the welcome note and gave a brief introduction. This was followed by a theoretical session on "Basics of Real Time PCR" which was animated by Dr. Rajesh Saha, Application Specialist, Department of Life Sciences, Bio-Rad Laboratories. During this session, Dr. Rajesh Saha explained meticulously on the principles of PCR and RT-PCR and the differences between them. He also talked about the detailed procedures to follow in RT-PCR, cycle threshold and dye chemistry.

The theoretical session was followed by the practical session. During this session all the participants were instructed on the detailed procedure, requirements as well as on how to prepare the samples to run the RT-PCR test. Every individual participant performed the experiment and set the samples to run for 1 to 2 hours. The results obtained were to be analysed on the 2nd day of the workshop.

22nd December, 2022: The 2nd day of the workshop started at 11:00 a.m. The results obtained the previous day was analysed during this session. Dr. Rajesh Saha explained the results obtained and the data analysis was done. This was then followed by a short interactive session and then a brief tour of the Guwahati Biotech Park was also done for all the participants. The 2 days training on RT-PCR concluded with a photo session.

Ms. Rukutalu
Head of Department
Department of Zoology
St. Joseph's College (Autonomous)
Jakhama.

Report on Vermiculture

The vermiculture is an innovative undertaking by the Department of Zoology, St. Joseph's College (Autonomous) under the supervision of Dr. Ramita Sougrakpam, Asst. Professor of Zoology Dept. The Zoology 5th semester students of 2022 are taking an active role in setting up and maintenance of the vermiculture. The setting up of the vermiculture is done in the month of September 2022.

Vermicomposting is the practice of using earth worms to turn organic waste into nutrient-laden fertilizer. It is nutritionally more beneficial than plant compost due to addition of excrement called worm castings. Worm casting hold beneficial microorganisms longer than traditional concepts. There are two worms that are specially adapted for composting conditions: red earthworms and red wigglers.

Advantages for the students:

The vermicomposting has been undertaken with the hope of giving the students how to manage organic waste and convert into the organic compost. This will help the students to develop production of biofertilizers for various crops for minimizing the use of chemical fertilizers. This will help teach our students to conserve our environment by minimizing the pollution of soil.

Advantages for the Environment:

Environmental benefits: Vermicomposting has shown to reduce the methane and nitrous oxide levels in landfills, which are worst for the environment than carbon dioxide gas.

More nutritious: the nutrients in earthworm compost are very easily absorbed by the roots of plants. It is not easily flushed from the soil because of the worm mucus.

Micro organisms: The compost is enriched with bacteria and microbes. This presence of increased microbial activity can make the area much more attractive to the bird which helps to remove plant pest.

Plant growth: The compost contains hormone that helps in plant growth.

Water retention: Vermicompost is a colloid and hold up to nine times its own weight in water. The water is held in an organic level so tend to evaporate slowly.

Slow nutrient release: The nutrients are held in place and released slowly so that the plants receive what they need over a prolonged period.

Recorded by: Dr. Ramita Sougrakpam

Assistant Professor

Department of Zoology, SJC(A)

Vermiculture

The vermiculture is an innovative undertaking by the Department of Zoology, St. Joseph's College (Autonomous)

The 5th semester Zoology honours student of 2022 are taking an active role in setting up and maintenance of the vermiculture

Advantages for the students:

The vermicomposting has been undertaken with the hope of giving the students how to manage organic waste and convert into the organic compost. This will help the students to develop production of biofertilizers for various crops for minimizing the use of chemical fertilizers. The main aim is to conserve our soil environment by minimizing the pollution of soil.

Cleaning and labelling of site by the 5th Semester Zoology students

Installation of the vermiculture bag by the 5th Semester Zoology students

Installation of the vermiculture sign board by the 5th Semester Zoology students

Date: 9th November 2022

Report of extension lecture on
'VACCINES'

The Department of Zoology, St. Joseph's College (Autonomous) Jakhama organised an extension lecture on the topic "Vaccines" under the paper code ZOD-5.3: Immunology for 5th semester students on 8th November 2022. A total of 29 students and three Assistant professors Ms Rukutalu, HOD, Department of Zoology, Mrs Bendangsangla and Dr Ramita Sougrakpam participated in the extension program.

The session began at 10:30 AM in Hall No. 2 at Pope Francis Science block with a welcome note from Miss Rukutalu, HOD, Department of Zoology. Dr Limatemjen, Associate Professor and Dean, School of sciences, Department of Zoology, Kohima Science College (A) Jotsoma was the guest speaker. He has been an active researcher in diverse fields including fresh water ecology, fish and fishery, having provided consultancy service to international agencies and the Dept. of fishery, Meghalaya. He discovered a new species of cicada (2021) and horsehair worm (2015), also gave first report (India) of a genus and several species of Nematomorpha. He has published in many international journals with high impact factor.

Dr. Limatemjen highlighted on the history of vaccines, how vaccine works, types of vaccines, Covid-19 Oxford Vaccine Trial and types of Corona virus vaccines in development.

Vaccine is an agent that is prepared from an antigen or pathogen by either deactivating its mechanism of protein or killing them. In 1877, Louis Pasteur developed a vaccine using a weakened strain of anthrax bacillus and this is when it all begun. Edward Jenner is considered the founder of vaccinology.

Three types of vaccines were discussed which are as follows:

1. Whole Organism Vaccines

- * Inactivated vaccines.
- * Live attenuated vaccines.
- * Chimeric vaccines.

2. Subunit Vaccines

- * Polysaccharide vaccines.
- * Conjugate vaccines.
- * Toxoid vaccines.
- * Recombinant protein vaccines.
- * Nanoparticle vaccines.

3. Nucleic acid vaccines

- * DNA plasmid vaccines.
- * mRNA vaccines.

* Recombinant vector vaccines.

The speaker further discussed on how the Nanoparticle vaccines, recombinant protein vaccines, mRNA vaccines and protein vaccines have high scope in the near future and how it would help the community as a whole.

The session was concluded with the vote of thanks proposed by Deepbhiyani Lama, Cultural Secretary, Department of Zoology, St. Josephs College (Autonomous) Jakhama.

The session was very informative and educational.
